A Coalition for a Stronger, Cleaner City

Petition Opposing Pike Quarry Expansion

We, the undersigned residents of Westbrook, oppose the expansion of Pike Industries on Spring Street, to include increased blasting, rock crushing and an asphalt plant. We do not believe these uses are in keeping with the City of Westbrook's vision for this area and that the expansion will create traffic congestion and unsafe conditions, unacceptable blasting shocks, asphalt fumes and have a negative impact on property values. We urge the City officials to vote against such an expansion.
